

HTK + HTH CoLAB

MEANINGFUL WORK... ACROSS THE WORLD!

You are invited to participate in the

HTK + HTH CoLAB

where teachers from Høje-Taastrup Municipality in Denmark and teachers from High Tech High plan a collaborative project to do with students during the 2024-2025 school year.

The project is organized and facilitated by Imagine If (former HTH teachers now living in Denmark).

The CoLab requires a commitment to:

- Planning and doing a project with a teacher (or team of teachers) from High Tech High sometime during the 2024-2025 school year. The exact time and duration of the project is decided together during the planning process.
- 10 planning sessions from 16.30-17.30 with partner teachers (about 1 time per month).
- A Kick-Off event (August), Check-In (November), Evaluation (May). Each is a one-hour session with Imagine If.

This is a great opportunity to help your students work with students in the USA while also learning from High Tech High teachers about Project-Based Learning.

Planning sessions will take place in English.

If you are interested in participating, send an email to Loni (loni@imagineif.dk)
